

MAR ELIAS COLLEGE, KOTTAPPADY

DEPARTMENT OF COMPUTER SCIENCE

Annual report-2018-19

For the academic year 2018-19, 142 students 9 faculty in our department. The department gave an orientation class to each of the newly admitted students. During this year; our department led a number of academic and non-academic programs.

PTA meeting was conducted after each exam. The mentoring section facilitates students for gaining practical advice, encouragement and support and to increase their social and academic confidence. Apart from all, the department organized study tour for students. Study tours made an opportunity to cooperate with teachers and integrated new perceptions with informal environments to enhance learning.

IGNUS Computer Science association of students and teachers organized inauguration of association and inter-collegiate fest. As part of these different events, games and coding sessions were organized. This helps them to motivate them to learn more and help them to allocate their study time effectively by focusing on the information that needs practice. It helped them to gain practical knowledge. The final year BCA and BSc students participated in the workshop IOS App development at Network System, Cochin. Cyber Security and Ethical Hacking Seminar arranged for UG final year students by alumni. During this year there were 25UG mini-projects and 50UG main projects completed by the students of BCA & B.Sc. Computer Science.2 of the students got placed in TCS and Infosys Ltd.
