**DEPARTMENT OF COMPUTER  
SCIENCE AND APPLICATIONS**

**Annual report of the academic year 2023-2024**

“Try not to become a man of success. Rather become a man of value.”

Albert Einstein

In the spirit of above quote the Department of Computer Science and Applications is preparing our students for attaining gradual success. During this academic year, we arranged Orientation classes and Bridge courses to our newly admitted students.

The department fulfils its dream of inculcating group dynamics, leadership skills and employable skills in the students by conducting innovative activities like exhibition and awareness classes in the topic Computer Hardware, on 8/12/2023, in which around 87 students participated.

The Department observed various important days related to technologies and conducted interdepartmental competitions. To broaden the horizon of students for their career choices and aspirations a motivating and insightful career guidance session was conducted for final year students in association with Nosce Techno Solutions on 6/3/2024. In regard to Teachers' Day, a peer teaching session was organised where senior students had the opportunity to impart knowledge and guidance to their juniors.

Open house sessions were organised semester wise for our students to promote transparency and communication with the parents, to discuss academic concerns and seek guidance on various matters related to their wards. Remedial sessions were conducted for those who required additional support.

The department also organized industrial visit on 16/2/2024 at Faya Innovations Private Limited. and study tour for final years to Chikmangalur and Coorg on 14/12/2023.

In conclusion, our department coordinated a blend of academic, cultural, and extra-curricular activities. We look forward to build on these success in the upcoming academic year. All this has been possible only by the great support and guidance from our principal, our dedicated team of faculty and very cooperative non-teaching staff and also well-disciplined students

Poornima N

Head of the Department
