

## **BEST PRACTICE 2.**

### **1. Title of the Practice**

MENTOR-MENTEE SYSTEM

### **2. Objectives of the Practice**

The students in Mar Elias College are highly heterogeneous in terms of their socio-economic backgrounds. Mar Elias College students have diverse socio-economic backgrounds; an efficient mentor-mentee system aids their overall development.

### **3. The Context**

The Mentor-Mentee system, introduced in 2021, provides mentors with logbooks to maintain confidential records of mentees' academic and co-curricular achievements for a smooth and effective mentoring process.

### **4. The Practice:**

**Role of Mentors:** Mentors support mentees through a one-to-one relationship, building trust, serving as role models, and offering guidance. They aim to develop both professional and personal skills, fostering mutual respect.

**Responsibilities of Mentees:** Mentees must respect their mentors, attend meetings regularly, and share details of their academic and extracurricular performance.

### **5. Evidence of Success:**

Student attendance has improved significantly, and effective mentoring has enhanced discipline, interaction, communication, and decision-making skills among mentees.

### **6. Problems Encountered and Resources Required**

Mentoring provides numerous benefits, but challenges include changes in meeting schedules, varying time needs, shortened sessions, and unrealistic expectations from some mentees for additional benefits.
